Dear Tom:

I know that your intelligence-gathering capabilities are outstanding, but I was not sure that you were able to get copies of the provisional summary records of the Executive Board debate on infant feeding. I brought a set back with me, and enclose a copy for your reference. Your thoughts on the resolution presented for Assembly adoption, as well as your strategies over the coming months, would be welcome.

Sincerely,

Neil A. Boyer, Director
Office of Health and
Narcotics Programs
Bureau of International
Organization Affairs
